

NINE CITIES ONCE CAPITAL OF U. S.

Washington, October 30.—(AP)—During the first 25 years of its organization congress moved "as frequently as a New York apartment house dweller," locating the national capital in nine cities, the National Geographic society said today in calling attention to the celebration this fall, by York, Pa., of its nine months' prominence as the seat of government of the United States.

When the British and Hessians marched into Philadelphia 150 years ago, Washington wintered at Valley Forge and congress spent its time at York.

Sharing the distinction with York are Washington, Baltimore, New York, Philadelphia, Lancaster, which was headquarters for congress for one day, Trenton and Princeton, N. J., and Annapolis, Md.

"Vigorous bidding for the capital of the United States foreshadowed the present 'booster' methods," said the society. "Kingston, N. Y. was the first in the field with an invitation. Annapolis urged its central location. Historic Williamsburg, Va., petitioned. When congress once actually voted to create capitals on the Potomac near Georgetown and on the Delaware near Trenton, it proposed to meet in Annapolis and Trenton alternately until the 'residences' were prepared. The federal capital was a live question. Trenton, Germantown, Carlisle, Lancaster, York and Reading sent prospectuses setting forth their advantages."

Only a minor amendment offered by James Madison requiring postponement until the next session, prevented enactment of a law in 1790 to establish the capital at Germantown, Pa.

Washington owes its selection, the society declared, to the insistence that the permanent seat of government be at the "geographic center" of the Union.

The "doll ambassadors of good will" will be a reciprocal remembrance for the 13,000 "friendship dolls" sent by American children to the Japanese girls to the children of America, it was announced today by the Federal Council of the Churches of Christ in America, through which the gift will be made.

The number of dolls to be sent was set at 57, so that there might be one representative of each of the 50 prefectures of the empire, one for each of the six principal cities and one for the imperial household.

The committee on world friendship among children, acting for the federal council of churches, is planning welcome receptions at Washington and New York and for a tour of the country with the dolls, it was said.

ST. LOUIS MAYOR TAKEN TO HOSPITAL

St. Louis, October 30.—(AP)—Mayor Victor J. Miller, attacked by acute indigestion, was taken to a hospital today.

Dr. Ellsworth Smith, personal physician of the mayor, said there was evidence of ptomaine poisoning. While the mayor is acutely ill, the doctor said, he did not believe he was in immediate danger.

Greek President Badly Wounded

Deposal of Pangalos government supporters has not brought peace to tempestuous Greece. General Kondylis, dictator, and M. Kondouriotis, provisional president, have their hands full. Newest photos from Athens show former leaving his office and latter in close-up in presidential palace. Kondouriotis was seriously wounded Sunday by a young waiter. Pangalos recently was found guilty of treason.

REGIONAL RED CROSS DELEGATES COMING

Regional conference of the American Red Cross will be held here Wednesday, November 2, assembling delegates from 30 chapters of the organization.

WILLIAM M. HARRIS.

zation over the state to confer with officials of the national and local organizations.

Dr. William H. Redden, national medical officer of the Red Cross, and William M. Harris, staff assistant to the vice chairman, will be among the national Red Cross representatives here for the conference.

The conference will begin Wednesday morning at 10 o'clock at the Atlanta Athletic club and will include luncheon and an afternoon session.

Rodney Morrison Jr., chairman of the Atlanta chapter, will preside at the meeting and the national representatives will deliver addresses to the assembled delegates. William Hutt, supervisor of safety for the American Bell Telephone and Telegraph company, will outline the "safety first" and first aid methods used by that company.

All phases of Red Cross work will be discussed and everyone interested in the work of this organization is invited to attend the conference.

**BRITISH DEATH TOLL
IN STORM NOW 61**
Continued from First Page.

whom was drowned before boatmen could come to the rescue.

Shipping was practically paralyzed for a few hours. Maritime reports indicated all the larger vessels had reached shelter safely, but several smaller craft had been badly damaged, while a few capsized.

Railway and inland telegraph and telephone communication also were crippled. Damage to land lines connecting with radio stations caused interruption of communications with India and Australia.

BANKERS GIVE \$1,100 TO VICTIMS OF WRECK

Hoboken, N. J., October 30.—(United News.)—Back from a maddening encounter with stormy seas, Captain William D. Potter and his crew of eight men returned tonight with the story of the foundering of the four-masted schooner Horatio J. Foss in a gale October 22, and their escape in a tiny open boat.

Half buried by crashing seas that threatened to swamp the leaking boat the nine men managed to keep afloat for seven days, until they were rescued Friday night by the Holland-American liner Volendam.

The Volendam came to port with the crew of the lost schooner and 419 of her own passengers, bankers and their wives, who chartered the steamer on which to hold a convention of the Savings Bank Association of New York.

Potter and his men were taken to

the Seamen's Church institute. A fund of \$1,100 solicited from the bankers is to be given to the seamen Monday.

ANCIENT INDIAN VILLAGE FOUND IN NEW MEXICO

Washington, October 30.—(United News.)—History was turned back 2,000 years when Frank H. Roberts, Jr., of the Smithsonian Institution staff, unearthed an ancient stone-slab Indian village in New Mexico, the institution announced today.

The village is believed to have been inhabited 1,500 years before Columbus set foot in the West Indies. The villagers preceded the Pueblo Indians, Roberts discovered.

Seventeen slab houses were found in a fairly well preserved condition in Chaco canyon.

Woman Is Cause Of Fight To Oust Oklahoma Head

Oklahoma City, Okla., October 30.—(AP)—The campaign to call into special session the legislature of Oklahoma, waged by opponents of Governor Henry S. Johnston, who seek his impeachment, received added impetus today. Grounds for the special session were outlined in statements today by H. Tom Knight, of Claremore, and E. P. Hill, of McAlester, members of the legislature whose names have been identified prominently with efforts to convene.

Knight, in making his statement public, said it was a copy of the petition he intends to present to the governor. Hill's statement was addressed to "the people of Oklahoma," but outlined specific allegations of misconduct by the state administration and also pointed to a need for legislation to remedy certain defects in the state laws, revealed by court decisions since the regular session of the legislature adjourned last March.

Knight said that a petition asking Governor Johnston to call the session would be presented to him within the week.

Mrs. O. O. Hammonds, confidential secretary to Governor Johnston, and who is said by the governor's opponents to "run" affairs in the executive office, figures in Knight's statement. A resolution asking the governor to discharge Mrs. Hammonds was voted down in the state senate last winter after fiery debate.

The statement said that the position of confidential secretary was "never contemplated by the legislature in any appropriation made."

**MILLERAND WINS
SEAT IN SENATE**

Paris, October 30.—(AP)—Former President Millerand won a seat in the senate in a by-election in the Orne department today. He was candidate of the national union and received 536 votes against 303 for his opponent, Jean L'Abbe.

M. Millerand was defeated last January in the same department. The conservative press is pleased at his re-entry into the political arena.

U. S. FEMINISTS PLAN TO ATTEND PARLEY ON PEACE

Washington, October 30.—(United News.)—Mrs. Carrie Chapman Catt and Miss Ruth Morgan, leading American feminists, will take part in an international women's peace conference to be held at Amsterdam, November 17-19, the National League of Women Voters announced here today.

The conference was called by Miss Morgan, chairman of the peace committee of the International Alliance of Women for Suffrage and Equal Citizenship. Mrs. Catt will represent the League of Women Voters.

D'Annunzio's Sinister Hoax FAMOUS POET THREATENED RUSSIAN'S LIFE On Chicherin Revealed

BY HENRY WALES.

(Copyright, 1927, for The Chicago Tribune.)

Paris, October 30.—The departure from France of Christian Rakovski, soviet ambassador, has revealed a sinister hoax perpetrated by Gabriel d'Annunzio, noted Italian poet, on Georges Chicherin, the Russian foreign minister at Genoa, during the economic conference of 1922.

The poet went to Genoa during the conference and lived in an enormous palace, placed at his disposal by a friend. d'Annunzio brought with him his retinue of Nubian blacks as servants, and lived in his usual regal style.

Shortly before the conference broke up, d'Annunzio sent an invitation to Chicherin to dine with him. Flattered at the honor, Chicherin accepted.

Covers Laid for Two.

He was ushered into the palace by the gigantic negro footmen and butlers, relieved of his coat and hat, and then led into the Rococo dining room, where he was surprised to note that covers were laid for only two.

In a moment the slender, bald-headed poet appeared and excused himself for the intimacy of the dinner, explaining, "It is because I wish to talk to you alone and to enjoy your company by myself, excellency."

The bolshevik delegate was amazed at d'Annunzio's comments and listened entranced to the poet's vivid conversation on music, art and politics throughout the elaborate meal.

Then d'Annunzio pressed a button, a silver bell tinkled, and two of his Nubians, arrayed in barbaric tribal regalia, entered the room, bearing between them an enormous silver salver on which rested a beautiful engraved and bejeweled sword.

d'Annunzio's Threat.

Chicherin's eyes bulged as he noted the damascene blade, and he turned inquiringly to his host as the blacks laid the rapier on the table.

"What is that beautiful piece, some chef d'oeuvre of the Italian art?" inquired Chicherin.

"That, dear fellow, is the weapon with which I am going to kill you," replied d'Annunzio, selecting a cigar and lighting it from the wadded taper which his native servant held.

"Have one of these; they are of the finest tobacco, made especially for my guests," he continued, the negro to hold the light for Chicherin.

The Russian minister forced a hollow laugh and mumbled something about the good joke.

"No, seriously, I am not joking. I invited you here to dine with me and then to slay you," replied d'Annunzio.

"You know my attitude toward the government you represent and the regime you epitomize, and I believe it to be my duty to embrace this opportunity to rid the world of such a monster as you. But, pray be calm. I shall give you time to write any messages or instructions you may have for your delegation and your government and your family."

Writing Materials Brought.

He rang the silver bell again and his Nubian lackey brought in paper, envelopes, pens, ink, and scented sealing wax.

Chicherin, by that time, was really alarmed, but sought to reassure himself that his host was joking.

"But you are fooling. Such a thing could not happen, in the twentieth century, in a city like this. It's absurd, impossible," he stammered.

"More terrible things are happening in your country, perpetrated by your henchmen, every day," replied d'Annunzio. "Is not this a beautiful piece?" And he fingered, ever so lightly,

ly the razor-like blade and the sharp point of the sword.

Monning and crying for mercy, his face ashen-white, his hands trembling with the fear which unnerved him, Chicherin pleaded for his life.

d'Annunzio pressed the little bell again. Two servants walked in and stood, one on each side of Chicherin's chair.

"No, I shall not kill you. I could not dream myself by touching you. But I tried this experiment to see if the man who had sent so many thousands of his countrymen to death, could go to his own death bravely. You cannot! Get out!" snapped d'Annunzio.

At a signal the blacks raised Chicherin, dragged him through the hall, opened the door and cast him into the street.

"No, I shall not kill you. I could not dream myself by touching you. But I tried this experiment to see if the man who had sent so many thousands of his countrymen to death, could go to his own death bravely. You cannot! Get out!" snapped d'Annunzio.

MAFALDA MISSING LIST TOTALS 296

Rio de Janeiro, October 30.—(United News.)—The Navigazione Generale Italiana, owners of the Italian liner Principessa Mafalda which sank last week off the Cape Verde islands, announced today that 296 persons were aboard the vessel still are missing.

The United News figures, based on the company's announcement that 1,256 passengers and crew were carried by the Mafalda, show 298 are missing.

Many of the survivors declare more than 300 were still aboard when the Mafalda sank, few of whom were rescued.

Chicherin's eyes bulged as he noted the damascene blade, and he turned inquiringly to his host as the blacks laid the rapier on the table.

"What is that beautiful piece, some chef d'oeuvre of the Italian art?" inquired Chicherin.

"That, dear fellow, is the weapon with which I am going to kill you," replied d'Annunzio, selecting a cigar and lighting it from the wadded taper which his native servant held.

STEEL IS BOUGHT FOR 5 PER CENT

BY R. L. BARNUM.

New York, October 30.—At 136 1/8 the low price touched for steel common early this week in anticipation of an unfavorable September quarter earnings statement the price was down 24 3/8 points from its high of this year. The outlook for the steel industry is not as promising as it has been in recent years. Nevertheless, from 140 down there has been good buying of Steel common.

At 140 a steel paying 7 per cent dividends offers an income return of exactly 5 per cent. From 140 down Steel common was bought on the belief that whatever happens in the stock market in the immediate future in the way of downward readjustment there will be a demand for good stocks offering an income return of 5 per cent or better.

When the Steel corporation was formed in 1901 there was no equity behind the \$508,000,000 common stock in the way of tangible assets. In fact the par value of the securities of the merged companies amounted to only 30 per cent of the outstanding \$508,000,000 common stock of the Steel corporation.

This year the Steel corporation declared a 40 per cent stock dividend out of its accumulated surplus brought the outstanding common stock to \$711,000,000. After deducting \$203,000,000 for the 40 per cent stock dividend the accumulated surplus remained at \$508,000,000, against the \$255,000,000 provided at the time the company was floated.

Small Gain.

In 1901 the Steel corporation with an ingot capacity of 9,425,000 tons had a book value of \$1,298,000,000. Since 1901 no less than \$1,667,000,000 has been spent on improvements and betterments bringing ingot capacity to the close of 1926 to 23,177,000 tons. Despite this expenditure, however, the property on December 31, last was valued at \$1,667,000,000.

Including reserve funds the holders of the Steel common on December 31 last had an equity in the property equal to \$205 a share.

Since the war ended \$518,000,000 has been added to property account with an increase of only \$40,000,000 in ingot capacity. What the company has been doing since 1918 has been to develop operating efficiency instead of increasing capacity to get ready for a period of reduced earning power.

While the Steel corporation now has \$203,000,000 more common stock than in 1901 the 7 per cent cumulative preferred stock has been reduced by \$150,000,000. The peak of the company's funded debt was reached in 1912 at \$643,900,000. At the close of 1926 the funded debt stood at only \$492,000,000. For 1912 annual interest charges on funded debt were \$33,301,000. For 1926 interest charges were only \$25,515,000 an annual saving equal to \$110 a share on the present amount of outstanding common stock.

Run at Capacity.

Last year the Steel Corporation operated at 88 per cent capacity and earned \$12.80 a share on the \$711,000,000 common stock now outstanding. Here is the percentage of capacity of operating units for each year since the end of the war:

Year	Operations	Earnings
1926	88	\$12.80
1925	78	9.20
1924	69	8.40
1923	88	12.70
1922	71	2.03
1921	48	1.69
1920	88	11.90
1919	75	7.27

For this eight-year period, which includes the two years of drastic world wide post-war deflation and readjustment, the Steel Corporation earned an average annual of \$8.11 a share for its common stock. In addition to this annual average earning power there was an accumulated surplus of \$822,000,000 at the beginning of this year with the company because of its large expenditures since 1918 for the development of operating efficiency in a position to face a period of smaller earning power.

Decline Shown.

For the September quarter this year's net was only \$41,373,000 against \$46,040,000 for the previous three months and \$52,626,000 for the September, 1926, quarter. This means \$2.14 a share for the common stock for the September quarter against \$2.78 for the June quarter and \$4.99 for the September, 1926, quarter.

For the first nine months of 1926 the Steel Corporation earned \$13.08 a share for its outstanding common stock. For the first nine months of this year only \$7.74 a share was earned. This represents a considerable drop in earning power on the common stock. However, more than the full year's \$7 dividend was earned in the first nine months.

Wall street believes that the quarterly earnings of the Steel Corporation as far ahead as can now be seen will not drop much below the \$41,373,000 reported for the September quarter, which would be at the annual rate of \$8.56 a share for the stock. The feeling is that any temporary drop in earning power below the point at which the \$1.75 quarterly dividend on the common stock would be covered would be paid out of accumulated surplus.

For the longer look ahead Wall street is expecting something more than \$7 a year for the common stock either in the form of extra dividends or another stock dividend. It is this confidence in Steel common that caused the stock to be purchased when it broke below 140 or where the income return was 5 per cent.

LEGISLATION ASKED FOR PHILIPPINES BY MANUEL QUEZON

New York, October 30.—(AP)—Manuel Quezon, president of the Philippine senate, who has arrived en route to Washington said that the "present uncertainty" regarding the future of the Philippines is jeopardizing the economic progress of the islands.

He said his only interest was in the policy of the United States government in respect to the Philippines and that he was not interested in the appointment of the next governor-general.

"I have come to see if it is possible to obtain at the next session of congress some measure which will put at rest the mind of the Filipino people regarding the future of their country," he said. "Independence has been promised us and yet no one knows when it will be granted. We think we are ready for it now, and we have been urging it year after year."

Quezon said leading financial interests could not be influenced to risk investment in the island.

He said he will pay his respect to the president and the secretary of war and will "try to lay before them the conditions prevailing in the islands as I see them."

Italian Facists Hold Celebration Of March on Rome

BY THOMAS E. MORGAN.

Rome, October 30.—(United News.)

The fifth anniversary of the "March on Rome," and the beginning of the year VI of the fascist era were celebrated today through the length and breadth of Italy with more than usual pomp and splendor.

Black shirts from the Rome province began to pour into the capital Saturday night and, today, imposing squads and companies of the militia created by Mussolini marched to their quarters for the magnificent review before him.

Il Duce, in full uniform as "corporal of honor" of the black-shirt militia, with Secretary Augusto Turati at his side, passed in review the legions of Rome and the Roman province, all resplendent in their dress uniforms.

Ice Manufacturers' Meeting Opens Here Tuesday Morning

With hundreds of delegates slated to begin arriving today, the first formal session in the convention of the National Association of Ice Manufacturers will be held in the grill room of the Atlanta-Biltmore Tuesday morning at 10:30 o'clock.

Arrival Sunday of a number of officers and officials of the association formed the vanguard of the hosts of ice manufacturers from every part of the country who will attend the convention here. A number of exhibits and information booths have already been installed at the Biltmore under the direction of Leslie Smith, secretary of the association.

Any inroads which the household refrigerating machine may have made on the ice industry is not reflected in the fine spirit of optimism displayed by the leaders in the industry. They all point to the fact that ice consumption is growing so rapidly that it is necessary for the household machine to come in and assist them in bearing the load of cooling the ice boxes of the nation.

Mrs. Yopp Prominent.
Among other figures long identified with the ice industry in the nation and who are prominent in the industry councils is Mrs. John W. Yopp, editor and publisher of the trade magazine "Refrigeration," which is one of the few ice trade journals published in the United States. Mrs. Yopp is a native of Georgia and the daughter of the late Federal Judge William Lambdin of Savannah. She is said to be the only woman trade journal editor and publisher in the south.

Official hosts of the convention and those who were successful in their efforts to bring this year's convention here are Wilshire Riley and W. B. Baker, officers of the Atlantic Ice and Coal company, with general offices in Atlanta; Gordon Burnett and J. D. Dinwiddie, executive heads of the Consumers Ice company here; Mrs. John W. Yopp, and S. S. Dudley, secretary of the Southern Ice Exchange.

Violating a custom of the national association, and demonstrating the spirit of Atlanta, the hosts have arranged an elaborate entertainment program for the visiting ladies, in addition to the program arranged for the delegates.

Trip to Mountain.
After the business session Tuesday morning the visitors will leave the West Peachtree entrance of the Biltmore in buses and automobiles for a trip to Stone Mountain, where special guides will explain the details of the

great Confederate memorial. The party will be returned to the Biltmore in time to convenience those having dinner engagements.

Wednesday morning at 10 o'clock automobiles for a sight-seeing tour of the city will leave the Plaza entrance of the Biltmore and return at 12:30 o'clock in the afternoon.

On Wednesday afternoon at 1:30 o'clock the Atlanta committee, with the visitors and delegates, will be the guests of the officers of the National association, who have invited all visitors to the convention to the East Lake country club, where Bobby Baker will play a 9-hole exhibition round. An old-fashioned barbecue, Georgia style, will be served on the grounds of the club after the match. Another sight-seeing tour of the city will begin Thursday morning at 10:30 o'clock, leaving from the Plaza entrance of the Biltmore and returning at 12:30 o'clock. Driving club for the luncheon.

Driving Club Luncheon.
The Atlanta entertainment committee, headed by Mrs. Riley, Mrs. Yopp and Mrs. Roy Goree will entertain the visiting ladies at a luncheon at the Piedmont Driving club. Covers will be laid for over 300 ladies.

Annual dinner-dance of the national association, which will be formal, will be held Thursday night at 7 o'clock at the Biltmore. Friday morning will be devoted by the ladies to shopping tours, and the afternoon to theater parties.

There will be many exhibits on display during the convention on the basement floor of the Biltmore hotel. All social features of the convention are being handled by the ladies committee, which is composed of Mesdames John W. Yopp, Wilshire Riley, George Pownall, Ralph Hancock, Hal Lambdin, Glenn Sudduth, Ed Dunne, Ed Canfield, Roy Goree, R. G. Geeslin, Frank Kaye and George Braungart.

The general entertainment committee is composed of Wilshire Riley, chairman; Gordon Burnett, J. W. Pickett, Frank Kaye, Walter F. Cox, S. S. Dudley, F. E. Brown, J. D. Dinwiddie, Hal Lambdin, Frank Kaye, Jr., and Ed Canfield.

**MERCER ANNOUNCES
DEBATE SCHEDULE**
Macon, Ga., October 30.—(Special.) Mercer university's tentative debating schedule was made public here Saturday afternoon. Debates have been arranged with Oglethorpe in Atlanta, Auburn at Auburn, and Furman at Greenville. A triangular debate also has been arranged with Emory and the University of Alabama, one of the colleges debating in Macon.

Mercer has a record that very few colleges can equal. Out of 50 contests the Mercer representatives have won 45. In the last four years the record shows 18 victories and two defeats. The team last year defeated Tech, Florida, Auburn and Oglethorpe and lost a close decision to Wake Forest.

Seven of last year's varsity debaters have returned to school this fall and are W. A. Wommack, Harrison; Carlton Mobley, Gray; Roy Hale, Macon; Tom Cobb, Tifton; Robert Gunnels, Elberton; Frank Jordan, Talbotton; Frank Twitty, Camilla.

Mercer's debating council is composed of Dr. A. P. Montague, chairman; Professor C. B. Williams, Dr. H. D. Kerchew, Professor Paul Bronson, and Professor L. H. Fowler.

Climb Down!

Climb down the rungs one by one, finding a new word for every downward step that differs from its predecessor by a single letter only. The order of the remaining letters must not be disturbed. A neat solution will contain only words that are useful or familiar—abbreviations and obsolete or hyphenated words are ruled out altogether. Try to beat our solution of Full-Back, which will be published tomorrow. Here's an answer to the last one: 1. Horse; 2. House; 3. Rouse; 4. Route; 5. Routs; 6. Fouts; 7. Pouts; 8. Poes; 9. Poeser; 10. Power.

Candlesticks

Very charming candlesticks in a variety of beautiful designs and styles are shown in our large collection of Sterling Silver.

For the dinner table four candlesticks holding burning tapers casting a soft glow over the scene adds a pleasing note. These are shown in both tall and squat styles.

For the boudoir two candlesticks may hold candles of the color harmonizing with the scheme of your boudoir... decidedly charming.

A flower-centerpiece filled with gay blossoms and a candlestick on either side is a beautiful decoration for the console table.

You will find many places in your home to use two or four candlesticks and the many styles and designs now on display afford you the opportunity of choosing very beautiful candlesticks for your own use. Splendid gifts for the bride. Wide price range.

Esther Ralston Has Good Vehicle In Maritime Epic

In selecting his cast for the spectacular epic of the sea, "Old Ironsides," which will be seen at the Erlanger theater throughout the coming week.

ESTHER RALSTON.

James Cruze, who had use for over two thousand men but only three women, made a happy choice when looking over the field of female eligibles. Esther Ralston was the one he picked for the feminine lead, and it is doubtful if he could have found another young woman better suited for giving the right touch to the romantic sequences of Laurence Stallings' story.

Miss Ralston, regarded as one of the most beautiful women of the screen, is more than attractive as the heroine in the big picture and, with Charles Farrell, the boy, gives a touch of reality to the love story, which Stallings has made quickly appealing in its simplicity.

Esther Ralston was born in Bar Harbor, Maine, in 1902. She is five feet, five and one-half inches tall and weighs 125 pounds. She first appeared on the stage at the early age of 2. Her first Paramount picture was "Huckleberry Finn," and since appearing in that film she has given a number of important parts. She has an equally successful sister who has been seen in the female lead with Harold Lloyd in a number of his pictures.

MUNICIPAL MARKET SELLING WILD GAME

Atlanta Municipal market, as revealed to officials of the Sears-Roebuck agricultural foundation during a recent visit, is one of the greatest factors in promoting agriculture in the Atlanta district. Farmers are actually bringing their products to town and selling them direct to the consumer.

At present several counties, including Cobb, Campbell, Carroll, DeKalb, Fulton, Fayette, Douglas, and others of the Atlanta district, have representatives selling their products to the people of Atlanta. These farmers not only sell the produce they grow but they actually harvest some things which require no attention in growing and sell it. For example, the assassin bugs are dug from the ground, cleaned and sold on the market. The opossum and rabbit, which take great pride in keeping their wild traits, are caught and sold. One farmer, when talking to a representative of the agricultural foundation, said: "I sold between 15,000 and 20,000 rabbits on the market last year. Between 40 and 50 opossums were sold from this stand last Saturday."

Officials in charge of the market express themselves as being pleased in the development of the market. They are especially interested in getting as many farmers to make use of the market as is possible. W. I. Ewing, market manager, is anxious to see the market continue to grow.

NEWSPAPER PAGES BY TELEPHOTO SEEN

Joplin, Mo., October 30.—(United News.)—An era in which the entire front page of a newspaper may be transmitted over press association wires by telephoto was visualized by Hugh Baillie, vice president of the United News, in an address before the Missouri Press association, Baillie said the rapidly increasing facilities of press associations forecasted that development.

Speaking on "Truth in News and the High Cost of Accuracy," Baillie pointed out the tremendous expenditures press associations made in covering the major news events of the past few months. Such events as trans-oceanic flights, flood disasters and the recent shipwreck in Brazilian waters entailed enormous expenditures for accurate coverage, Baillie said.

He cited the Smith Hawaiian flight, in which wireless telephony was used to score a new "best" and declared that newer inventions were rapidly changing the old forms of news transmission.

Warm Springs Guests Enjoy Swim and Dance; Many Atlantans Present

Warm Springs, Ga., October 30.—(Special.)—The first Halloween costume dance ever given at the Warm Springs inn proved a big success Saturday night and justified the policy of the Franklin D. Roosevelt management in keeping the resort open throughout the winter. Nearly 100 couples attended the dance, coming from Atlanta and nearby towns, and an orchestra was brought from Atlanta for the event.

Scores of the dancers enjoyed the unusual experience of a dip in the swimming pool in the late fall. The pool is fed by the famous warm springs which give the resort its name, and its temperature never varies, summer or winter. The bathhouses and dressing rooms are heated this fall for the first time.

Mr. Roosevelt is spending several weeks here, superintending some extensive improvements. The new steam heat plant which reaches all the cottages on the properties, has been completed and Warm Springs is now equipped for a year-round season.

CHURCH MEMBERSHIP GOAL IS SET AT 1,000

C. R. Stauffer, pastor of the First Christian church, announced Sunday that members of the congregation have decided that the church should have as its Pentecostal evangelistic goal 1,000 new members to the church by May, 1930, when the international convention of the Disciples of Christ will meet in Washington, D. C., to celebrate the 1,900th anniversary of Pentecost, when the church was organized at Jerusalem.

The campaign has reached large proportions throughout the Disciples of Christ and is spreading among other religious bodies. A committee of 15, of which the pastor of First church is a member, has charge of the campaign throughout the world. The recent state convention at First church adopted as its Pentecostal goal to grow from 18,000 members to 25,000 throughout the state.

The Men's Bible class at First church, F. E. Maffett, president, is conducting an attendance and membership drive, with 160 men present Sunday. E. O. Colburn had an attendance of 80 on his side to 60 on Sam Shelton's side.

MERCER LAW CLASS ELECTS OFFICERS

Macon, Ga., October 30.—(Special.) The members of the Mercer university first-year law class have elected the following officers: President, W. A. Wommack, Harrison, Ga.; vice president, Thomas Calloway, Ashburn, Ga.; and secretary, Buchanan Loser, Nashville, Tenn.

STRIKE ON MEXICAN RAILROAD LINES DECLARED ILLEGAL

Mexico City, October 30.—(United News.)—The strike of several thousand employees on the Mexican lines of the Southern Pacific has been declared illegal by the federal board of conciliation and arbitration.

The railway recently asked permission to cut wages 20 per cent and reduce work to five days a week because of heavy losses.

The board gave the workers 62 hours to return to their jobs.

SHRINE TO GIVE FANCY DRESS BALL TONIGHT

Three prominent Shriners, disguised in the garb of witches, will act as judges and award the five prizes to be given at Xarab Temple's fancy dress Halloween ball tonight at Druid Hills club. There will be three prizes for the ladies and two for the nobles and keen competition is anticipated.

The Shrine dance committee, which has charge of the event, has planned to make this the most elaborate ball ever held by Xarab Temple. In addition to excellent music, refreshments and artistic Halloween decorations, a vaudeville program will be given, the artists appearing between dances.

Favors will be distributed and Halloween games introduced during the evening. The committee announces that those who do not desire to compete for prizes may come in informal attire, but nobles are reminded of the necessity of producing the 1927 Shrine card at the door.

MUSICAL FESTIVAL GIVEN BY BAPTISTS

Attended by an audience of approximately 5,000, a large and impressive sacred musical concert was presented Sunday afternoon at the city auditorium under the auspices of the South Side Baptist church, for the purpose of raising funds for the erection of new buildings for that church.

A monster choir of 300 voices headed the large list of musical attractions presented. General musical accompaniment was under the direction of Dr. Charles A. Sheldon, Jr., city organist. A 35-piece orchestra, led by Wallace Jackson of the Cincinnati Conservatory of Music, also was featured on the program.

The Mercer Four, male quartet from Mercer university at Macon, Ga.; the Stone Mountain quartet, the Raymond quartet, and Professor Hull and family, saxophone quartet, were other features.

Solos were given by Solon Drukenmiller and Professor Campbell. Joe Woods, former legislator, and the Rev. T. B. Thraill, pastor of the South Side church, gave short talks. A free-will offering was taken after the presentation of the program and about \$200 was reported in contributions.

PEACH TREES BLOOM IN DUBLIN ORCHARDS

Dublin, Ga., October 30.—(P.)—Mother nature has mere man guessing again. Peach trees in several sections of Dublin are in bloom.

SON TO DAUGHTER OF KING OF ITALY IS BORN IN ROME

Rome, October 30.—(United News.) A son was born today to Princess Mafalda, daughter of Queen Victor Emmanuel and wife of Prince Philip of Hesse.

The princess, who is 25 years old, had arrived in Rome only a few days ago. The queen was present at the birth.

The son is the king's second male grandchild, the first, which died soon after birth, having been born to Princess Yolanda.

Mother and child were reported doing well.

The Italian liner Principessa Mafalda, which sank last week 90 miles off the Brazilian coast, with a loss of about 300 lives, was named after Princess Mafalda.

Keith's Georgia.

Gus Edwards, in person, and presenting his newest stage offering, "Ritz Carlton Nights," will be seen all this week at Keith's Georgia theater and from all reports is one of the best shows he has ever produced. There are 20 in the company, all youngsters with talent and personality; they sing, dance, do comedy bits and present something different from so-called revues. On the screen will be shown "The Isle of Forgotten Women." The story is laid in an island of the south seas.

Capitol.

Vaudeville and picture fans are assured of an outstanding program at the Capitol theater this week, where a variety bill of five acts, headed by that master pantomime artist, Joe Jackson, and "The Irresistible Lover," will be presented. The latter is the latest photoplay, "Naughty But Nice," which will be this week's attraction at the Metropolitan theater. Enrico Leide, conducting the Metropolitan orchestra, has arranged a splendid musical score.

Loew's Grand.

This week Loew's Grand theater has the honor of presenting for the first time in Atlanta at popular prices the spectacular and stupendous production, "Ben Hur," with Ramon Novarro in the leading roles. This magnificent creation has played the legitimate theaters of the country, and its prices will be offered here with the same musical score and the same effects as in its New York engagements. The picture, which is the picture of the regular vaudeville program will be eliminated at Loew's Grand for this week only.

Forsyth.

What is considered unquestionably as the theatrical event of the week is the presentation of the dramatic play, "Rain," by the Forsyth Players at the Forsyth theater tonight and thereafter during the week with matinees on Tuesday, Thursday and Saturday. The world-famous role of Sadie Thompson will be portrayed by that master actress, Frances Woodbury, who has played the part numerous times previous to this in stock companies. The play itself is grippingly impressive, not only in its dramatic content, but also in its striking atmosphere of rain which is extant

throughout the presentation of the drama.

Howard.

Today starts a brand new kind of war comedy at the Howard theater. It is William Boyd, Mary Astor and Louis Wolheim in "Two Arabian Knights," a United Artist picture. It is the story of two "knights" who escape from a German prison camp right after the war and then into Constantinople and then into Arabia. On the stage is Al Short in "Toyland," a Public production where some jumping-jacks and clowns coming to life give a peppy entertainment of joy.

Metropolitan.

The number of surprisingly interesting things that can happen in an exclusive eastern girls' finishing school when a ten-million-dollar heiress, innocent but ambitious, from the oil well country of Texas puts in her appearance is shown in Colleen Moore's latest photoplay, "Naughty But Nice," which will be this week's attraction at the Metropolitan theater. Enrico Leide, conducting the Metropolitan orchestra, has arranged a splendid musical score.

Rialto.

"Shootin' Irons," the melodrama which was postponed from last week, will open this morning at 11 o'clock at the Rialto theater at the top of a splendid program of entertainment. Jack Ludea and Sally Blane, sensationally successful graduates of the Paramount acting school, make their debut in the Rialto yatrios in "Shootin' Irons," and there is a comedy from the Educational studios and the current edition of the Paramount news reel.

Ponce de Leon.

The zippiest and the most thrilling of all the many thrillers Richard Dix has made is "Knockout Reilly," which is to be seen today only at the Ponce de Leon theater. "Knockout Reilly" is the story of a young steel worker, who knows less than nothing about prize fighting, and yet he steps in when his girl friend is insulted, and knocks out the world's champion. Later he gets entangled with the same champion and the latter beats him to a pulp. He then starts training in reality and then—then—"Knockout Reilly."

DRAMA STUDENTS ATTEND OPENING TONIGHT OF "RAIN"

Members of the Players' club and the drama class of Oglethorpe university will be the guests of the Forsyth theater management tonight at the opening of "Rain," which will be presented by the Forsyth Players at that theater all week.

The two organizations, which are under the direction of Dr. James E. Routh, are widely known in southern amateur theatrical circles and intensely interested in the drama. "Rain" is one of the most dramatic productions ever written for the American stage, and the powerful role of Sadie Thompson has been written down into the unforgettable annals of American theatrical history by Jeanne Eagels.

Frances Woodbury, distinguished stock actress, will essay the role in the local presentation by the Forsyth Players.

Players. She has played the role with many prominent stock organizations and it will be no "first-time" portrayal of this mighty character by her.

Others of the Forsyth Players who will have prominent roles are: Walter Regan, leading man; Helene Dumas, leading woman; Jack Jordan, Antoinette Roche, Aileen Meehan, Barton McLane, Stanley Andrews, Ainsworth Arnold, director, and others.

SYMPHONY CONCERT
TICKETS GO ON SALE

Seat sales open this morning at the Phillips & Crew Piano company, corner Ellis and Peachtree streets, for the benefit performance of the Atlanta Symphony orchestra to be given Sunday, November 13, at Keith's Georgia theater.

This performance, which will be the only one to be given by the orchestra this season, will be presented to wipe out the deficit left from the presentation of the eight Sunday afternoon programs during the season of 1926-1927.

Use of the theater has been donated by C. R. R. Eggleston, manager, and with the entire orchestra and soloists giving their services free. It is hoped, with this one performance, to realize enough revenue to pay off the total of about \$3,000 indebtedness of the symphony association.

Tickets will be on sale all this week and next at Phillips & Crew. It is pointed out that since it is in violation of the law to sell tickets on Sunday, all seats must be purchased in advance of the performance.

Reservations, which will be kept until a date to be announced later, may be made by telephone to Mrs. George Walker, secretary, either at Phillips & Crew or at her residence, Hemlock 4527.

FUZZY WOODRUFF
IS RESTING EASILY AND IMPROVING

Fuzzy Woodruff, staff writer for the Atlanta Georgian and Sunday American, seriously ill at Davis-Fischer sanitarium following an operation for appendicitis, was reported today by his physician, Dr. McLaughlin, as improving.

Mr. Woodruff's condition was said to be still extremely serious, but that he was resting easily and an improvement had been noted. Unless unexpected complications set in, his physician said he was expected to make a general improvement would follow.

Conditions Sunday afternoon and night were reported as favorable.

RHYMES OF AMERICAN NURSERY MEMORIZED BY RUSSIAN CHILDREN

Top, a group of Russian workers and their children listening to a radio program broadcast from Moscow, below view of Red Square, Moscow, on November 7, planned to celebrate the tenth anniversary of soviet rule.

BY MADEIRA LEOP.
 Moscow, Russia, October 30.—The young generation of soviet Russia is memorizing Mother Goose.

The new children's poets of Russia have discovered "The House That Jack Built." "A Dollar, a Dollar, a Tea O'Clock Scholar," and "The Three Little Kittens That Lost Their Mittens."

They have translated them into their own language and illustrated them with brightly-colored pictures.

Favor American Poetry.
 "The words in children's rhymes," says Lebedeff, one of Russia's most prominent artists, "should be worth memorizing. The pictures should always be good enough for them to cut out and keep. We try to do both, and we find that American nursery poetry is excellent."

"Of course, we sell our books at a low price, because we want the children of the workers and peasants to be able to afford them. Ten kopeks (5 cents) is all the workingman can pay."

Government Publisher.
 "You see, 80 per cent of the books of our country are published by the government. Only 20 per cent are

printed by private concerns. We are trying to reduce the price, but many of the children's books—the brightly-colored ones—cannot be sold for less than 75 kopeks (38 cents), and very few people can buy them."

The children's writers of Russia have to make books which the boys and girls will be able to understand without the help of their parents, because so many fathers and mothers cannot read or write.

The books must be neither too advanced nor too childish. They must teach the children about subjects like electricity, for instance, in a way that is neither too scientific nor too elementary.

Marshak, a children's poet who works with Lebedeff, does not like many of the educational books American children use.

"They are written," he said, "for the old men carrying a pail of water and the sprightly young plumber; they see the splashes of pen and ink compared with the efficient typewriter."

"Everything must be easy for the children to understand; yet it must be worth while for growing minds to learn."

Ferocious Coyote Attacks Policemen Who Slay Him

BY ELMO HAMBY.
 Arf! Arf!
 Little Orphan Annie, the girl of the comics, and her canine friend and coyote demolisher, Sandy, should have been in Atlanta Sunday night when officers of the law mixed it with a big, wild and ferocious coyote in a garage at the rear of 683 Lee street, the melee ending when the coyote bit the dust with a bullet in his chest. The officer heart from the revolver of Call Officer G. N. Ellis.

He was, as we said before, big, wild and ferocious, or at least Officers Jake Sartain and Charles H. Grant said so, and since the animal chased them for about half a block, they should know.

Put up the chairs, maties, and you'll hear of the Sunday night shooting of M. Coyote, the first wild beast shot in the confines of the city limits of Atlanta in many moons.

Officers Sartain, Grant and Ellis were called to the garage in which the animal had been discovered and trapped. For several nights, M. Coyote had been forcing among the neighbors' chickens and he always brought his spoils to the nice, up-bolstered cushions before he ate them.

The officers arrived and rigged up some sort of a contraption involving poles and wires. They finally thought they had the animal sufficiently ensnared, so they opened the doors and prepared to cart him to the police station.

But M. Coyote, on beholding the badges of the officers, no doubt, suddenly decided that he didn't like policemen a little bit. So in one huge lunge, he snapped the wires and in another lunge, headed for Officers Sartain, formerly a prizefighter, and Grant.

Now heroes, in Officer Sartain's plight, would probably have swung a wicked left to the jaw, but heroes sometimes get chewed up, so the officer "sold out" right perdy, and Officer Grant ran him a very close second.

Officer Ellis then shot the coyote and he was brought to police station, where curious throngs surrounded the dead animal.

It was not known just how the coyote happened to be in this vicinity. Some caustic gentleman at the police station, who didn't know his California wild life, stated that the animal was probably a police dog. But after thorough investigation, they decided since no trace of any police badge could be found on the carcass, the "critter" must really have been a coyote.

H. O. Thomas Elected Head of Chattooga School Association
 Summerville, Ga., October 30.—(Special.)—The first monthly meeting of the Chattooga County Education association, held at the school auditorium, was one of the most interesting in the history of the organization. There was a large attendance of teachers from all over the county.

R. G. Vinson, superintendent of the Summerville schools, after serving as president of the association for two years, was reelected to serve a third term, but immediately following the election he tendered his resignation. H. O. Thomas, superintendent of the Gore High school, was then elected president and installed in office. R. G. Vinson, of Summerville, was elected vice president, and Miss Maude Sewell, county school superintendent, was elected secretary.

Topics of interest to the teachers were discussed by Miss Maude Sewell, county superintendent; C. E. Bell, superintendent of the Trion school; H. O. Thomas, superintendent of the Gore school; W. G. Foster, superintendent of the Lyster school, and Superintendent R. G. Vinson, of the Summerville schools.

The third Saturday in each month was designated as the regular meeting day. Dr. Furry of Shorter college, Rome, will conduct a class in psychology on November 15 and will cease to bear interest after that date. Second Liberty loan four per cent bonds are not included in the treasury offer. After November 8, both the four and four and one-half per cent bonds will be purchased at par and accrued interest.

25 "MEN OF WAR" TO BE ADDED SOON TO U. S. AIR FORCE
 Washington, October 30.—(United News.)—Twenty-five "flying men-of-war" will be added to the army's aviation equipment, it was announced today as an order was placed with the Keystone Aircraft company, Bristol, Pa., for the new planes.

The planes will carry 2,000-pound bombs, having a cruising radius of six hours at 100 miles an hour and will be equipped with five machine guns each.

The new machines are scheduled to be assigned to Langley field, Norfolk, Virginia.

SAPIO TELLS STORY OF SUIT FOR MILLION

(By Leased Wire to The Constitution and The Chicago Tribune.)
 New York, October 30.—Three thousand persons vainly stormed the doors of Carnegie hall this afternoon to hear which Espino, Chicago attorney, relate the history of his \$1,000,000 bill suit against Henry Ford.

Half an hour before the attorney mounted the platform, the doors for the first time were closed. Two thousand persons already had pressed into the auditorium. Sapio revealed that neither Ford's counsel, Senator Reed, nor Don Cameron, editor of the Dearborn Independent, in which were published attacks on the attorney and Jews in general, knew of Ford's change of front, until after his apology had been made public.

"William Randolph Hearst offered Ford \$1,500,000 for the Independent," Sapio stated. "If he were able to buy it, he intended to discontinue its publication. Negotiations were terminated when Ford realized that he had done an injustice, and made amends."

Sapio affirmed that he had asked \$1,000,000 damages, because that was the sum which Espino, editor of the Chicago Tribune, when he sued the newspaper for libel, and won a verdict of six cents.

"I was not interested in Ford's money," Sapio stated. "I wanted merely to prove he was wrong. When Ford spoke, it was not an individual speaking, it was 10,000,000 talking to all the world."

Britain Assailed For Palestine Course by Rabbi
 Cleveland, Ohio, October 30.—(AP)—Great Britain was assailed today to live up to the obligations assumed in 1917 in which it promised to facilitate the creation of a Jewish homeland in Palestine, Rabbi Stephen S. Wise, of New York, charged today in an address before delegates to the national conference of the American Jewish Congress in Cleveland.

Urging Zionists to leaders of America to hold Great Britain to its pledge, he said:

"We shall insist that the terms of the mandate with regard to the control and utilization of the natural resources of the land be fulfilled. That the profits are to accrue, neither to any individual in England, nor to any company of non-Jews, nor to any company that the gains of the valuable Dead Sea concession shall be safeguarded for the Jewish people."

Rabbi Wise blamed Zionist leaders for the failure to hold Britain to its obligations under the mandatory government.

"I do not mean to say that Great Britain has not opened the door of Palestine to Jewish immigrants," he said. "That is not enough. I hold that the Jewish settlers in Palestine have in the past ten years been treated as if they constituted a normal, prosperous, taxable Jewish settlement anywhere, rather than a struggling, pioneering Jew who were entitled to the facilitation denied them by the British government."

HEAVY MORTALITY RATE FOR NEGROES SHOWN IN CHICAGO
 (By Leased Wire to The Constitution.)
 Chicago, October 30.—Conditions shown by a health survey of the negro population of Chicago, made public tonight by Dr. Herman E. Bundesen, commissioner of health, have drawn the attention of the city, in his opinion, justifies vigorous and immediate corrective measures. One conclusion developed by the study is that the death rate among negroes in Chicago is about twice that of the balance of the population.

In the case of preventable diseases, causes of death, the negro mortality is shown to be practically six times as great from tuberculosis, for instance, as that of whites.

Infant mortality among the negroes, the report reveals, is greater by 30 in each 1,000 than among whites, which amounts to nearly 38 per cent above the white percentage.

Man Killed at Macon Is Believed To Be Citizen of Cedartown
 Macon, Ga., October 30.—(AP)—A young white man about 25 years old, thought to be Howard Lewis of Cedartown, Ga., died at 10:30 o'clock tonight, about 30 minutes after being struck by a freight train near here.

He was on a freight train near here, and was evidently fast asleep, according to those who saw the accident, while waiting. He was thrown 30 feet down a high embankment. Both legs of the one arm were broken. He died before the ambulance arrived. He was of medium height and had reddish hair, dressed in overalls and dark blue shirt. There was a letter on his person addressed to Mrs. J. Lewis, 913 Jones street, Cedartown.

EX-STATE OFFICIAL NEXT TO TESTIFY IN CENSUS PROBE
 New York, October 30.—(AP)—Alexander Otis, counsel for Mrs. Florence E. S. Knapp, former secretary of state, will advise her not to testify in the investigation into the conduct of the 1925 state census under the conditions laid down by Commissioner Randall J. Le Bouef, Jr., the attorney said here today.

"Le Bouef has refused Mrs. Knapp's demand that Otis be permitted to assist her at the inquiry and that she be allowed to present her own witnesses. He has agreed to conduct the hearing in her home city, Syracuse. He told her she must appear before him by Thursday, November 3.

X-RAY TREATMENT TO HASTEN PLANT LIFE PRODUCTION
 Chicago, October 30.—(AP)—Production of plant and animal life by X-ray treatment a hundred times faster than heretofore possible will be realized within a few years if the prediction of Lao J. Brosemer, of Chicago, scientific livestock breeder and former junior animal husbandman of the United States department of agriculture, comes true.

His prediction was made today after he had analyzed the results of biological tests on fruit trees by Dr. H. J. Miller, of the University of Texas. The tests showed conclusively, Brosemer said, that breedings of chickens, horses, cattle, hogs, poultry and dogs will soon be able to get greater speed in race horses, greater milk production in dairy cows, heavier hogs, super hens and more nearly perfect conformation in dogs.

"A...pulsion of 500,000 by 1930"
is Atlanta's Slogan. Let's all pull
together for a Greater Atlanta.

The Constitution's Weekly Business Review

EDITED BY M. D. GLEASON

There is hardly a need or a want
that cannot be filled in Atlanta's
stores and factories.

Pioneer Peanut Butter Man Increases Output of Product

The Sunshine Peanut Butter company, at 109-111 Peters street, began making peanut butter for the family trade about 18 years ago. So well did their product take with their customers that it was only by constantly adding new equipment they were able to catch up with their orders. They now announce that they are in a position to supply all new customers.

The proprietor of this firm, F. D. Terry, has been making and handling peanut products in Atlanta for over 20 years and has built up a trade that requires almost all of their four-story

formula for his peanut butter that does not contain too much oil or liquid matter; and will not stick to the roof of the mouth when eaten with hot bread or crackers.

It is put up in a nice table glass and in two sizes and makes a neat and attractive package for store shelves and looks well when placed on any dining table. The butter itself has a rich, nutty flavor and not the slightest bitter taste some times noticeable in peanut butter.

Mr. Terry in speaking about his peanut butter, stated that he was well aware that there were some very good brands of peanut butter on the market and that competitors in this field were strong, but that he had had as much experience with the peanut as any other one man the last 20 years. He has an ideal factory and lives in a state that is now a leader in growing fine peanuts and has been making high quality peanut butter for his sandwiches. He is now making a peanut butter that will not spoil in a few months. Packages he put up more than a year ago look and taste like they were just packed and this is pleasing him very much.

Mr. Terry concluded by saying that heretofore he had been buying many carloads of Georgia peanuts every year, but with their increased equipment they expect to double their buying of peanuts, and that this would give much extra work for people in south Georgia.

This peanut butter is being sold in small and table-size glasses and in bulk cases of 30, 25, 50 and 100 pounds, and their salted peanuts are sold in 10, 50, 100 and 200-pound cans and barrels, and both products are being shipped in great quantities daily at this busy plant.

As the Sunshine Peanut Butter company is manufacturing on a large scale of peanut products, all buyers of their goods are assured of receiving fresh-made peanut products by prompt deliveries of express shipments, and the buyer need not wait with them by mail can do as well as he can by personal call. Their growth and success of today is built upon the repeat orders of satisfied customers that have been trading with them for years.

NUMETAL WEATHER STRIPS

Have You Put the Finishing Touches On Your Home?

Prevent Rattle

Numetal Weather Strips are on the job continuously, rain or shine, cold weather or warm weather. During the winter months they will keep the rain from blowing in your windows and doors. During the hot and dusty season of the year they will prevent your windows from rattling.

Local Sheet Metal Firm Progressive Leader in Work

In the building of a large city like Atlanta there are many units, groups and trades that, while all are in a way working independent of the other by their united efforts as a whole keep building a bigger and greater city each year.

A capitalist or land owner decided to build a large building or open up a new subdivision or community center; consults with his friends, business associates, architect or banker; and decides on the plan and scope of the building operations and work soon gets under way.

The second step is in the construction of the decided plans. Contracts for the building are let to men or firms that are known to be reliable, and subcontractors are again let to subcontractors that the architects and contractor know will do their part of the work according to specifications and plans.

This means then that the real builders of Atlanta are the experienced reliable artisans who see that each and every piece of material is fitted in its proper place to make the whole job come out according to the owner's desires and the architects' and builders' plans.

Sheet Metal Man.
In the sheet metal line probably no one man in Atlanta has done more as actually built Atlanta than R. F. Knox, the master sheet metal man of 515 Marietta street.

Mr. Knox began work here as an apprentice boy nearly 40 years ago and by the time the Cotton States Exposition was held at Piedmont park in 1895, was foreman of his crew on the most particular part of the sheet metal work used on the buildings for the big fair.

For the next 20 years Mr. Knox was in charge of every conceivable kind of interior and exterior metal work being done in Atlanta and surrounding towns. There are hundreds of the finest jobs of sheet metal work and slate roofing in this vicinity that were done under his supervision.

About 15 years ago Mr. Knox began business for himself on Marietta street and four years ago built his own special building where he is now located to do just this kind of work. Being so thoroughly familiar with the mechanic's side of the sheet metal

work Mr. Knox built and equipped in a way that he has the ideal workshop for good workmen and good facilities for them to get out good work.

In their general shop work this firm can make anything that is to be made of sheet metal and this fact is quite generally known some very queer and old pieces of metal work are made there during the month.

Believes in Copper.
Mr. Knox is one of America's foremost believers in using copper where an expensive building is being erected, as his long experience in the sheet metal business has conclusively proven to him that copper is the cheapest and best wherever used.

At this season of the year this firm is busy making radiator covers and humidifiers. In making these radiator covers they make them to order for each customer and they can be painted to suit the furniture or woodwork of each individual room. Radiator covers have long ago proved the fact that they pay for themselves in the saving of fuel and clearing in two years' time, and, besides, they convert an unsightly coil or piping into an extra piece of furniture in any room where they are installed.

As a master sheet metal man, Mr. Knox has not only kept up to date in all lines, but has in several cases brought out some important inventions of articles made of sheet metal; among these is the garbage chute, now used in apartment houses and upstairs dining rooms. His dust blower is in demand among those who need a fan blower to collect the light dust that accumulates around mills and gins.

Mr. Knox's latest invention, the Knox Ever-Tite flashing lock, is the greatest thing of the kind ever invented to protect walks, or chimneys from leaking where the roof connects with the brick.

This Knox Ever-Tite flashing lock is not only the best but can be inserted at a cost about 20 times less than roof flashing has to be done by any other method.

There is not an architect or builder in this country but will specify Knox Ever-Tite flashing lock to be used on every important job he builds, and he looks into the merits of this lock.

Ready-to-Wear Garment House Breaking Records

"We have just closed our best month's business," said Jacob Segalowitz, manager of the New York Stock House at 100 Forsyth street, S. W.

"In fact," added Mr. Segalowitz, "every month this year was a record-breaker over the same month last year. When we had the big Merchants and Manufacturers' week we thought we were making sales records, but as large as they were, they do not compare with our October sales."

"There is no use talking," further stated Mr. Segalowitz, "Atlanta's pre-eminent geographical location is a big factor in this city's favor, as the ideal wholesale distributing point, and when recent press stories cited Atlanta as far outstripping much larger cities in their wholesale trade figures, it spoke well for the live, progressive, wholesome firms in the Gate City of the South and the great variety of goods they sell."

"In our own line of ladies' ready-to-wear dresses and cloaks, never have we carried as large an assortment of ready-to-wear garments as we offer the trade today, and no matter what the up-to-date merchant wants in our line we can give it to him in any style, color or size."

"I have just returned from a quick-buying trip to New York, and I venture to say that the lady or miss that wears a garment bought through my local retail dealer that trades with us, though she may live in a small town or village in the southeast, she is never more than 24 hours behind Broadway very often and that much ahead of her in the latest styles now being worn here in Atlanta has given us a commanding prestige and we are very

often given the opportunity of making the first selection in new stylish garments."

"An important fact I wish to stress," continued Mr. Segalowitz, "is that no merchant can buy any out-of-date, shop-worn or old garments from us. The goods we have are of this class of merchandise, we do not stock or select dresses and cloaks to keep them to look at and admire. We represent over a score of the leading dress and cloak makers in this country and there were several days in the past month when we would have between 6,000 and 7,000 cloaks in stock and the next day four or five hundred would be being expressed to all parts of the southland, and we were touching the wires to replace them with up-to-the-minute garments, so whatever is the latest thing the customers always have the assurance that ready-to-wear garments bought of us are the latest in style."

"In the matter of service," concluded Mr. Segalowitz, "we can tell any merchant in the southeast that if he will write or wire us the sizes of cloaks wanted at this time and about what priced garments he wants we can get them delivered upon satisfactory reference, to him in most cases in 24 hours after we receive his order. Tan, black and French blue are the leading colors this fall and most all colors are fashionable. We can send anyone a varied selection of popular sellers at this time."

"Very often an emergency bill bought under this plan saves an expensive trip and time of a busy merchant and we, upon our part, are building our ever-increasing business upon our sales to satisfied customers."

Freight Hauled in Atlanta Daily Totals Big Tonnage

Comparisons are often made between the cities and growth of cities in the various classes and the opportunity presents itself here to show some of Atlanta's local freight hauling and it may be a very large city indeed to outstrip this city in the transfer and freight moving business.

There are 59 large transfer companies listed as reliable companies, who are engaged daily in the transfer business and they are supplemented by a large number of one-truck or one-horse drays who have some customers and do odd hauling jobs, to these must be added the delivery and freight trucks of several hundred firms that have their own trucks and deliver their merchandise and haul their own freight.

To get some idea of the freight hauled in this city, and to this must be added a very effective organization of men that have had long experience in our line and each one knows just what to do in the service of our customers.

"Operating under the system we do," continued Mr. Bagwell, "we save our customers much useless worry, loss of time and expense as an illustration some boxes, barrels, bundles or other merchandise arrive here at one of the terminals where we have an office and it is marked for one of our customers and they take the personal charge of it—sees the condi-

who do the real merchandise business, they should see our freight depots, express companies and parcel post departments during certain hours every day.

"I have been in the transfer business in Atlanta for 20 years," further stated Mr. Bagwell, "and I know of no other one business that has grown in proportion as the transfer business, even our own company has had to continually keep adding new equipment during the past four years to keep up with the ever-increasing amount of freight we haul from the depots."

"While we do all sorts of hauling, we specialize in eight hauling the past few years, and we probably are one of the best-equipped transfer companies in the south to handle the many kinds, sizes and shapes from a large city, and to this must be added a very effective organization of men that have had long experience in our line and each one knows just what to do in the service of our customers."

"Operating under the system we do," continued Mr. Bagwell, "we save our customers much useless worry, loss of time and expense as an illustration some boxes, barrels, bundles or other merchandise arrive here at one of the terminals where we have an office and it is marked for one of our customers and they take the personal charge of it—sees the condi-

SEIZURE OF SOVIET VESSEL IS LIKELY TO CAUSE CLASH

Cairo, Egypt, October 30.—(P)—The Alexandria correspondent of the newspaper Al Ahram says political complications are feared because of the seizure of the Soviet Russian steamer Tchitcherine, loaded with 90,000 pounds sterling worth of cotton which, it is stated, was purchased by Russian representatives in Alexandria through the Equitable Trust company of New York.

The correspondent says the ship was seized yesterday as it was leaving Alexandria for Odessa at the request of the owners of the steamer Costi, which recently was seized and confiscated by Russian authorities at Odessa.

BEN HILL COUNTY FAIR OPENS TUESDAY

Fitzgerald, Ga., October 30.—(Special)—The Ben Hill County fair will open here Tuesday and Homer Watkins, secretary, anticipates a large display of poultry, hogs and cattle, as well as displays of farm products, a result of extensive diversification on the farms of the county.

The fair will be held in tents located south of the city on the Dixie highway and it is expected that large crowds will attend. The rural school will attend the fair in a body Wednesday. Several of the consolidated schools of the county have exhibits.

tion it arrives in and if all right, calls the customer, pays the freight and sends it right over. If the freight is to go out they call him when it is ready and he sends for it, gets the bill of lading and sees that it is started on its way. As he is doing this all day, he cuts out the many tedious details of the inexperienced man usually does not know how to avoid."

"The service we have been rendering all our old customers all these years," concluded Mr. Bagwell, "and the increased confidence we receive from them in giving us new additional business warrants us in asking the freight transfer business of the many new firms moving into Atlanta, and we, upon our part, assure all new customers the same good, efficient service those we already serve."

Probe of Dupont Stock Holdings Now Under Way

Washington, October 30.—(P)—Rapid progress is being made by the federal trade commission in its inquiry into the acquisition by the Dupont interests of stock of the United States Steel and General Motors corporations. The field work in the investigation is going forward, the commission announced today, but the time of completion cannot be determined now.

Investigations ordered by congress into petroleum prices, the bread and flour milling industry, and other commercial enterprises will be given precedence, it was indicated, over the Dupont inquiry.

Several investigations instituted during the summer will be somewhat delayed by completion of similar congressional inquiries, it is understood. They include those into resale price maintenance and price cutting, price bases, lumber trade associations and "blue sky" securities. The securities inquiry is a continuation of a previous activity of the commission which announced it "will be of a constructive character and will not deal with specific cases of abuse," when completed.

"Business men are sensing the value of the economic investigations now being conducted by the federal trade commission and are cooperating in furnishing data and otherwise lending their assistance to make these inquiries a success," the commission said.

That the findings of the commission in these comprehensive surveys of resale price maintenance, large stock company mergers, sale of "blue sky" securities, the petroleum industry, the flour and flour industry and other fields, will form important documents for the use and future guidance of business, is the general purport of correspondence being received daily by the commission.

FORSYTH BLAZE DAMAGES CAFE, SHOP; LOSS \$2,000

Fire of undetermined origin Sunday night damaged a cafe operated by Mike Wagner at 184 South Forsyth street and a sewing shop of the Service Manufacturing company at 182 South Forsyth street, next door, fire department reports show.

The fire originated in the cafe and spread to the sewing shop. The damage was estimated at about \$2,000.

THE GUMPS—ONE BILLION DOLLARS

They Wouldn't Believe

By Roy Vickers

SYNOPSIS.
On the way to Donald Brierley's house at Reubens for luncheon Connie Elmore, Donald's fiancée, tells her friend, Olive Weston, that Donald stands a chance of inheriting half a million from the estate of old Harrowby, a friend of Donald's father.
Olive and Connie share a flat in London. Olive is secretly in love with Donald but sincerely pleased at Connie's good fortune in winning him.
Sandle and Querk, solicitors handling the Harrowby estate, are crooked and plot to cheat Donald Brierley of the fortune by having a spurious heir appear whose claim is prior to Donald's. In the midst of the plotting Augustus Brierley, Donald's father, presumed to have died on the Titanic, calls on Sandle. Querk suggests to Sandle that he invite Brierley to Harrowby house and there with the assistance of Querk's tool, Wade, dispose of Brierley.
Connie decides to visit her old nurse, who is now caretaker of Harrowby house. Mrs. Jones is out, but Connie finds the key and lets herself in to wait for her. She hears strange noises in the library and, going to investigate, she sees Sandle and another man kill Mr. Brierley, whom she recognizes from his portrait. Rushing out of the house Connie stumbles into Mr. Querk. While telling her story Querk pushes the bell and sends a signal to the murderers. Connie sees a policeman and, calling him, the three proceed to the library and Connie asks Querk to meet her in the hall where she had seen the men place the body. It is empty. Querk accompanies her to the police station, where she tells her story to the police superintendent. Querk intimates that she imagined the scene and, in exasperation, Connie goes to see Olive, who believes her story.
Querk requests Sandle to come to the superintendent's office and he presents his alibi, which the officer accepts. The two lawyers proceed to Wade's office, where old man Turle and his son, the spurious heirs, await him. The old man dies just after they walk into the office.
The next morning Connie calls on Querk and meets young Jones there. She recognizes him as her old nurse's son, but does not know that he has been posing as Henry Turle, Jr. Querk later pretends that Connie imagined she saw young Jones. He tells Olive that Sandle is about to bring criminal suit against Connie unless Olive, as her nearest friend, has her committed to a private institution at Merton which he recommends. While Donald is visiting Connie at Merton house a body is found buried in his garden. Olive, sent out on the case by her newspaper, meets and warns Donald. He arranges a hiding place for him in London. Olive suspects Querk.

INSTALLMENT LXVII.

A POINT OF LAW

Rason smiled.

"I am generally impressed by what you say, Miss Weston."

"Well, you know that Donald was Querk's client—and whatever you thought I had been up to you must have known it was pretty queer for a solicitor to try and get the police to arrest his own client. Don't look impatient, please! I really am sticking to the point. There's more about Querk coming."

"I don't want to be rude, Miss Weston, but I'm not at all sure that I want to hear it. You're only yourself to blame when I say that any information that comes from you comes from a tainted source."

"Yes. What was it Shakespeare said?—'Oh, yes—My credit now stands on such slippery ground.' But I'm going to pay cash for this little favor, Mr. Rason."

Rason looked startled, and she added:

"Don't be silly. I don't mean I'm going to bribe you with money. I'm going to bribe you with information."

Rason hesitated.

"It's no good our talking on these lines. I've told you I can't make any bargain with you."

"I don't want a bargain," retorted Olive. "I simply want a photograph which I can't get and you can."

Rason shook his head.

"I've told you I can't help you in any way."

"Well, let's see if you'll swallow my bribe," said Olive briskly. "Listen to this. Querk is a crook who put up this murder plot against Donald Brierley. You're more than half inclined to believe he's a crook. He not only put up this murder plot but also he got my friend, Connie Elmore, certified as a lunatic by trickery."

Rason looked up, an odd expression on his face.

"I remember. You came to see me about it."

"Funny you should only remember it this minute," said Olive sharply. "She told a tale about a man being murdered in Harrowby house—and about the body being carried away before the policeman got into the house. The next thing that happens is that a body is found in the garden of the man she is going to marry. Funny that she should get hold of a weird and wonderful tale of murder and the next thing that happens is that her fiancé is suddenly accused of murder!"

"Not very sound reasoning, Miss Weston, if I may say so. For one thing, it leads nowhere."

"Anyway, that was why the clever mental people found that she was suffering from hallucination—because she persisted in making a statement which seemed absurd. Now one of the statements she made which seemed absurd was that one morning—the day

before she was taken to the asylum—she saw, in Mr. Querk's office, the son of her old nurse. He saved her life from drowning when she was a little thing and she has good reason to remember him. Mr. Querk absolutely denies that the young man ever came into his office and that she ever saw him there. Hold those facts very carefully, Mr. Rason. The flash of lightning is coming in a minute."

Rason laughed. Olive hurried on:

"The young man she actually saw in Querk's office was young Turle the son of the man whom Donald is supposed to have murdered."

Olive waited. Rason for a moment said nothing and then:

"Well? There seems to me nothing startling in that."

"The young man was actually young Turle. The young man is also actually the son of Connie's old nurse—Mrs. Jones, caretaker at Harrowby house."

Rason looked hard at her and she went on:

"That is to say that he is not young Turle at all—which is another reason for you to believe me when I say Querk is a crook and a murderer."

Rason stroked his chin thoughtfully.

"The old woman hasn't seen her son for very many years. She doesn't know anything about it—except that, as Querk led her to believe, my friend Miss Elmore brought her a false assurance that she had seen young Jones. But you can settle the whole thing for yourself. I can't get hold of a photograph of young Turle. Ever since he's been in England he has avoided passport photograph, you know. You can get hold of that and I can't. You not get hold right away of the photograph of young Turle, show it to Mrs. Jones and ask her if she knows who it is?"

"It doesn't prove overmuch against Querk, you know," he said. "The Turles aren't Querk's clients."

"There's the pretty thumping fact that Querk pretended Connie had had an hallucination about it. Why didn't he say she had had an hallucination that young Turle was young Jones? But what does all that matter? I am not fixed on putting one particular man in prison. Oh, nothing personal intended, I assure you. I want to get at the truth of the matter and clear Donald. And it seems to me that when I can prove to you that this Turle fellow is a fake, I've done quite a lot towards getting the police on my side."

"The foreign office won't make any difficulties about the photograph," he said. "The most satisfactory test from our point of view would be for Mrs. Jones to identify that photograph from a number of others as a photograph of her son. Do you think you could bring her here, say, in a couple of hours' time?"

"I'll try," said Olive.

"I'll try," said Olive.

"I'll try," said Olive.

\$3,000.00

FIRST PRIZE
FOR YOU

SECOND PRIZE

\$1,000.00

THIRD PRIZE

\$1,000.00

\$500 EXTRA IN CASH
FOR PROMPTNESS

HAVE YOUR MONEY IN TIME
FOR CHRISTMAS

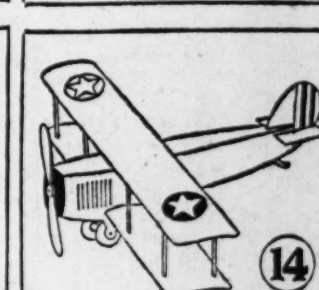

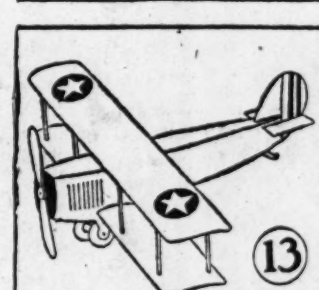

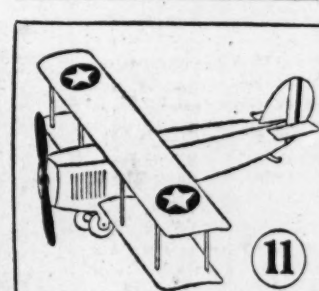

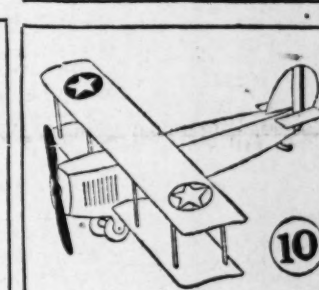

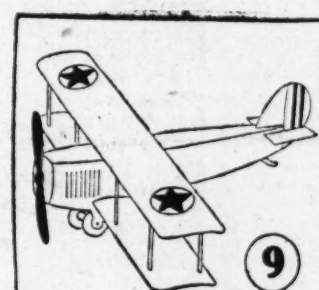

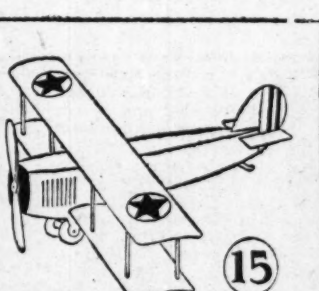

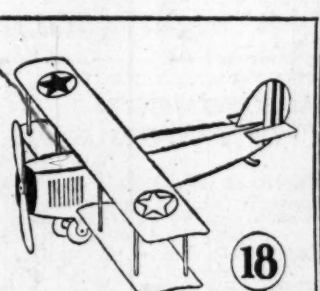

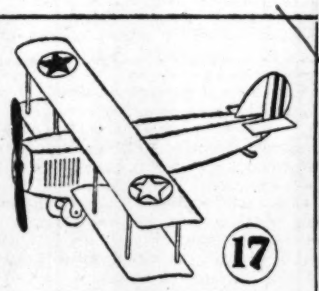

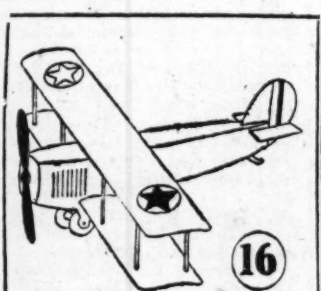

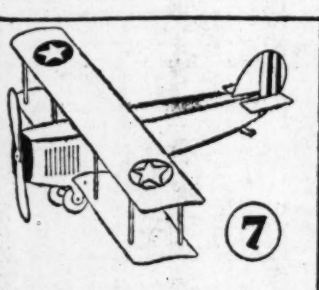

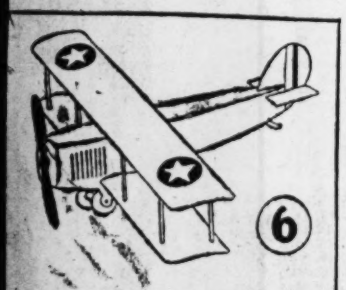

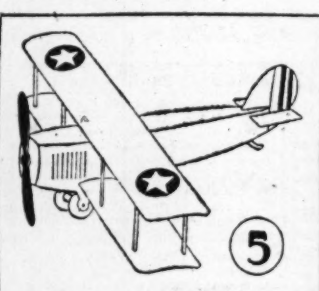

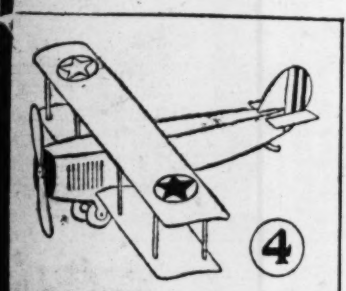

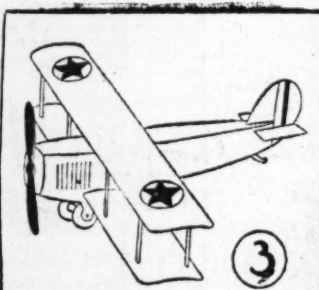

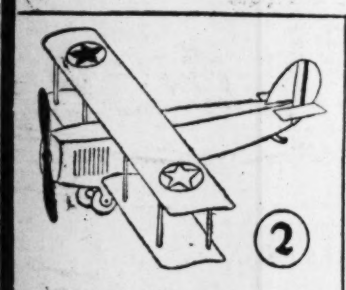

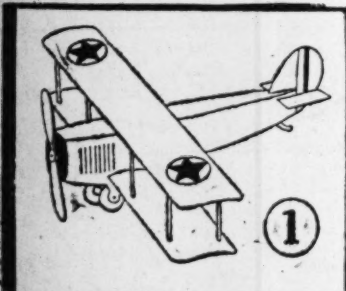

This contest closes December 1. Prize winners will receive their awards before Christmas—in time for them to enjoy them to the full. There will be no endless chain of tie-breaking puzzles—when the contest closes, it will stay closed, once and for all. Winners will be selected strictly on the merits of their original answers and no one will be subjected to a series of monotonous elimination tests. Once you have sent in your answer you have nothing more to bother your head about. Enter this contest now, and have your prize money in time for Christmas.

If the First Prize Winner in the Constitution's Great Airplane Puzzle Contest invests his \$3,500 at 6 per cent, it will earn \$210 a year, every year as long as he lives. A tidy vacation sum, to be

sure---\$15 a day for two weeks! If you would like the assurance of a PERFECT vacation EVERY year, start now towards getting a share of the \$7,500.00 prize money. DON'T DELAY!

Find the Two Duplicate Airplanes

No they are not all alike! Two and only two are identical and are the TWO AIRPLANES you are asked to find. Can you? To be sure, the 18 Airplanes all look alike, but look closer. How about their propellers? Some are black and some white. There are other differences, too. Only TWO airplanes are exact duplicates. Can you find them?

THE ATLANTA CONSTITUTION

offers an opportunity at this tremendous fortune to every man, woman and child—Join in the fascinating airplane Treasure Hunt—

Share In \$7,500.00 Cash Prizes

Find the TWO airplanes that are exact duplicates. At first glance they all look alike; but upon closer examination you will see that almost every one differs in some way from all the others. The difference may be in the stripes on the tail; while some have white radiators and others black. How about their propellers? They aren't all alike, are they? And the stars on the wings are arranged in different ways, too—a black with a white, two whites, or two black ones, and so on.

Make sure you have found the TWO airplanes that are exact duplicates, then send in your answer. Someone who finds the right airplanes is going to win a lot of money. Make that "someone" be YOU!

CASH FIRST PRIZE, \$3,000.00

Extra First Prize for Promptness, \$500.00

You Can Win \$3,500.00

Here's another great array of Cash Prizes offered by The Atlanta Constitution. That's what it is, folks—and you can be a winner. The prizes range from \$1 to \$35, and from \$35 to \$3,000.00, also an EXTRA FIRST PRIZE of \$500.00 for Promptness. Yes, sir, YOU CAN WIN AS MUCH AS \$3,500.00.

Think of it! A First Prize of \$3,500.00. In all, \$7,500.00 in Cash Prizes may be won in this interesting puzzle contest. The contest closes December 1st, and all prizes will be awarded in time to reach the winners by Christmas day. There will be 50 winners and the First

Prize, the golden opportunity, is \$3,000.00 plus \$500.00, making a grand total of \$3,500.00—IF YOU ACT QUICKLY.

If there is a tie for any prize, the full amount of the prize will be paid to each person so tied.

500 POINTS wins First Prize. We will give you 450 points for finding the TWO airplanes that are exactly alike. Promptly upon receipt of your answer, we will send you particulars of a magic word game, in which, if successful, you earn the final 50 points to win a \$3,500.00 Cash Prize or one of the 49 other Cash Prizes.

Easy Rules

Any man, woman, boy or girl living in Georgia or adjoining states, who is not an employee of the Atlanta Constitution or a member of an employee's family, may submit an answer.

When you have made your selection of the TWO airplanes that are exactly alike send in your answer. Study the pictures—Remember there are only two airplane pictures that are duplicates.

When you have found them, write the numbers in the coupon opposite, fill in your name and complete address and mail at once to the Puzzle Manager, The Atlanta Constitution. Promptness will mean a lot to you in this puzzle game.

If there is a tie for any prize, the full amount of the prize will be paid to each person so tied.

The whole family may cooperate in this competition, but only one prize will be awarded to any one household, nor will prizes be awarded to more than one of any group outside the family, where two or more have been working together.

There will be three independent judges, having no connection with The Constitution, who will judge the answers submitted and award the prizes in this competition. Participants by sending in their answer agree to accept the decision of the judges as final and conclusive.

\$7,500 TREASURE CHEST

Here you are, folks—the big prize awards. The amounts you can win are shown in the table below.

FIFTY GRAND PRIZES	
1st Prize	\$3,000.00
2nd Prize	1,000.00
3rd Prize	1,000.00
4th Prize	500.00
5th Prize	300.00
6th Prize	100.00
7th Prize	100.00
8th Prize	100.00
9th Prize	100.00
10th to 50th Prizes, inclusive	20.00
Totals	\$7,020.00
\$500.00	EXTRA FIRST PRIZE FOR PROMPTNESS

If you enter in this great contest immediately, and should submit the winning answer, The Constitution will send you in addition to the First Prize of \$3,000.00—\$500.00 extra for being PROMPT, making \$3,500.00 in all. When you work for a prize don't be satisfied with any but the biggest one—which in this great contest is \$3,500.00.
